Best-seller on Amazon chronicles how a broke and homeless teenager became a self-made millionaire who retired at age 38; offers author's five-point plan for changing your life and becoming a millionaire

Forget college. Aimee Elizabeth, the self-made millionaire who went from homeless teenager to thirty-eight-year-old retiree, has a lot to say about how she pulled herself up by the bootstraps with virtually no money, no education, and no help, nothing but a whole lot of determination.

In *Poverty Sucks! How to Become a Self-Made Millionaire*, she tells the story of her epiphany – that she was never going to make what she was worth working for someone else – and how she systematically set to work to create the life she enjoys today.

Among the topics Aimee Elizabeth covers are these:

- Why college is a waste of time and money
- Differentiating between winners and losers in the game of life and deciding which you're going to be
- Choosing the business that's right for you
- Running the numbers on starting and funding that business
- Working smart rather than hard
- Making rental properties a dream instead of a nightmare
- Avoiding risk-prone paper assets
- Creating a successful home-based start-up business for a thousand dollars or less while working just twelve or fewer hours a week

This user-friendly book, written in language any third grader can understand, also teaches the ins and outs of selling your hugely successful business, purchasing insurance, hiring a financial advisor, and more. In short, *Poverty Sucks!* walks readers through what it takes to achieve wealth, keep and grow that wealth, and enjoy early retirement.

Aimee Elizabeth comments, "With the collapse of the housing market and the entire country going into another Great Depression, I felt it was time to teach people how to create their own financial freedom. It's not that hard. No fancy degrees or large sums of cash required! I wish to see poverty eradicated worldwide, and I can teach people how to create a better life for themselves."

Aimee Elizabeth, who has been featured on the AOL Huffington Post "You've Got" segment and has contributed to articles for Fox Business News and Bankrate.com, champions www.StreetTeens.org, a Nevada charity for homeless teens.

"[This is] the best self-help book I've ever read...[A lot of books] try to kid you that you can become rich simply by thinking positive thoughts. You, however, show us the real nuts..."

- **Simon R. Gladdish, Reviewer**

Author: Aimee Elizabeth was a broke and homeless teenage girl, a throwaway kid, at age fifteen. She had many low paying (but legal!) jobs that kept her from starving. She was never in foster care, never received any government or charitable assistance, and never received any money from family or friends. She started her first successful business on a shoestring budget, began three more businesses from scratch, and retired at age thirty-eight after selling her fourth business. She is now a multimillionaire, a successful real estate investor (fancy name for landlord), a guest speaker, an eBusiness consultant, and the best-selling author of *Poverty Sucks! How to Become a Self-Made Millionaire*.
