I saw Aimee Elizabeth speak and I was touched by her life story, which helped me during a particularly rough period of time marked by some serious setbacks.

Especially, her June Bug story made me laugh and touched my heart. After hearing her, I rethought my pessimistic attitude toward life.

In Aimee, I have witnessed an exemplary individual who is dedicated to their line of work and who goes above and beyond when performing their speeches. I am confident that she will be a great fit, and I wholeheartedly recommend her.

Sincerely,

Gary Byers
